Logistics at the Heart of Defense Operations: Participation of GEODIS at the Eurosatory 2026 Exhibition

In line with its ongoing development in the strategic aerospace and defense markets, GEODIS will participate in the international exhibition Eurosatory 2026 from June 15 to 19, 2026, occupying stand B24 in hall 4.

Visitors to Eurosatory 2026 in Paris—a global reference event in the fields of land and air defense and security—will be able to discover GEODIS' activities in Hall 4 at stand B24.

Aerospace & Defense experts from GEODIS will be present to discuss with visitors the most strategic logistics challenges:

- Security and compliance
- Management of critical projects and complex flows
- Supply and maintenance
- Agile support for production and innovation
- Lifecycle optimization and reverse logistics

Visitors will also be able to discover GEODIS' innovative solutions through an immersive experience using virtual reality glasses.

Conference:

Furthermore, General Arnaud Weixler, Director of the Aerospace and Defense market at GEODIS, will speak on Wednesday, June 17 at 10:30 am (Exhibitor Corner, Hall 6) during a [conference](#) dedicated to our ability as a logistics provider to transform a traditionally ancillary domain into a vector of resilience, agility, and sovereignty.
