GEODIS wins Italian "Logistico dell'Anno 2025" Award

In partnership with Plenitude, GEODIS has been honored by receiving Assologistica's Circular Logistics Award for its "Enhancement and Improvement of Customer Experience".

GEODIS, a global leading transport and logistics services provider, was announced the winner of "Logistico dell'Anno 2025" at the annual ceremony organized by Assologistica in Milan on November 21. The Awards conferred annually by Assologistica, by the division Assologistica Culture and Training and by the magazine Euromerci, recognise companies that distinguish themselves in their respective fields. GEODIS received the award for its "Enhancement and Improvement of Customer Experience" in the Circular & Sharing Logistics category.

The latest project developed by GEODIS in Italy with its client "Plenitude"— a subsidiary of Eni – focuses on the adoption of cutting-edge technologies to reduce both time to market and installation of residential (B2C) photovoltaic systems.

The innovative solution consists of a turnkey kit for end-users, which integrates individually mapped components and assembles them on a single pallet. With the aim of improving operational efficiency and environmental sustainability, the solution is necessarily built upon close collaboration with partners and clients. . It minimizes the risk of incomplete deliveries, streamlines inventory management, and increases product turnover. All of which generate positive effects on the client's working capital.

In addition, for commercial, industrial (B2B), as well as public administrative (B2G) clients, the project encompasses the collection and assessment of used photovoltaic panels, their storage, and disposal of non-recoverable materials, underscoring a commitment to a truly circular logistics cycle.

*«It is an honor for us to receive this prestigious and highly sought-after award in our industry» commented **Maurizio Bortolan, Managing Director of GEODIS in Italy.** "GEODIS in Italy is experiencing a period of significant growth. Receipt of this award serves both as a testament to the expertise and experience from which we began and as an incentive to pursue our journey with even greater enthusiasm and dedication."*

The Award underlines GEODIS' significant presence in the Italian market where the business is divided into three lines: Contract Logistics, Freight Forwarding, and Road Transport. Generating a turnover of €400 million annually thanks to the work of 1500 employees, the HQ is in Milan and the organisation has a total of 30 operational sites throughout the country.

Press release

GEODIS – www.geodis.com
