

GEODIS EMPHASIZES IMPORTANCE OF INNOVATION IN LOGISTICS AT TL MUNICH EXHIBITION

GEODIS, one of the world's leading global supply chain operators, will be exhibiting at this year's *transport logistic*, Messe München, Germany 04 – 07 June 2019

The global Supply Chain Operator, which ranks among the world's top logistics companies, is putting a range of innovative services and operational processes on display, using augmented and virtual reality solutions. In its Experience Room situated on the GEODIS exhibition booth located in **Hall B5.303/402**, GEODIS is exhibiting several innovations in the fields of warehouse automation, inventory by drone, robotic picking and others.

50% of the company's investment in innovation is planned to go into further digitalization programs in the coming years. GEODIS sees digitalization as fundamental to the optimization of operational processes throughout the industry, as it will enable optimized supply chain services that will help companies with their growth ambitions while minimizing the environmental impact.

To learn more about GEODIS' vision of the future of the supply chain, we invite you to join us in Munich across all four days of *transport logistic*, where our specialists and executives will be on hand to welcome you!

transport logistic is the world's leading trade fair for logistics, mobility, IT and supply chain management. It presents the optimal solutions for every logistics and freight transport requirement. The fair combines innovative products, technologies, and systems with pooled expertise, global market leaders, high-quality conferences with high-ranked agendas. The international diversity is represented by over 2,000 exhibitors.
